New wide brimmed panamas and mohairs; flattering and summery. White and pastel shades.

Baby White Bonnets Clearing at 50c.

Ordinarily 95c., white muslin and rep bonnets with lace trimmings and thin linings.

Orient Silk Hose—Purple Stripe \$1.00

They're the greatest dollar hose we have seen; sheer, lovely, pure silk, in semi-service weight. Finished with purple stripe, run stop and narrow French heel. New colors. Sizes 8 1-2 to 10 1-2.

Gull Lake's Great Event

With the entries to close on Saturday 11th, this week has seen entries galore pouring in to the secretary, and among those entered, are numbered some of the Greatest Amateur Swimmers in Canada. Miss Shelia Ritchie, holder of several Dominion Records for swimming, has been entered in the Wrigley mile Championship and the Ladies' 100 yards. She should be among the prize winners. Then we have an entry from Jack Pollock, of Edmonton. This young swimmer holds three Dominion Championships, and seven Provincial Championships, and to make his entry more interesting, he learned the art of swimming at Gull Lake several years ago. These are but two of the better known swimmers. The entries have been received from such widely separated points as Edmonton and Provost, Eekville, Red Deer, Blackfalds, Calgary, Banff, Strathcona, Drumheller, Medicine Hat and Stettin. It is believed that over fifty swimmers will take the water in the Men's Wrigley Swim, with at least twenty in the Women's Wrigley event.

The Canoe Events are also attracting some of Canada's Greatest. For instance, Jack Porter, of Calgary, holder of more than two hundred championships for Dominion, Provincial, International races, has entered for the third time in Gull Lake Regatta Events. The Voyageurs Canoe Club, of Edmonton, said to be the Greatest Club of its kind in the West, will have about sixteen entered in the canoe events; the Banff Boating Club has eight entries in for the Canoe Classics, and Edmonton and Seba Beach and Gull Lake will have a half dozen each represented in these championships.

The Motor Boat group, while not complete as yet, will see about fourteen of Alberta's Speediest Boats in Action, with Vic Horner and Teddy George, of Rimby likely driving the winners or near winners. Nothing has been left undone that could possibly make this Sports Day a success. The stores of Lacombe will close for the afternoon, and we are assured that Olive, Bentley and Rimby will also declare a holiday.

As a slight diversion in the program, Len Douglas and his boys will present an athletic programme of pyramid building. The canoe events will be very interesting and amusing, and the diving exhibition should prove popular to young and old. So if you are thinking of a holiday you can do no better than to come to Gull Lake on Saturday, the 25th. Bring the whole family and your lunch. Picnic at Alberta's Most Beautiful Lake Regatta, and witness the greatest sporting event ever attempted in Alberta at any time or place. A full programme will be published next week.

TURN-OF-TAX STILL TO FORT

It is not often that Mr. Bennett admits he was deterred from taking a certain course because of strong opposition to it was manifested. But this he did, on Thursday in answering Mr. Bourassa, who expressed regret that he failed to introduce the turnover tax after advocating it before he came into power. The premier said that he would have liked to do so when it became necessary to find more revenue, but that persistent campaign had been made against the move by financial and news journals. He was still impressed by its fairness, however, and hoped that it would yet be sponsored by some minister of finance, for he felt it would prove acceptable to the Canadian people.

The main argument against the adoption of the proposal was that at a time of business difficulty it would be a mistake to try out any experiment in taxation. The objection was a valid one and it was not raised alone by the press of the country. The Retail Merchants' association issued a pamphlet in which the tax was criticized on general grounds. It was held to be inequitable and costly to business concerns with a large turnover at a small profit would be paying entirely out of proportion to those which had a small turnover and a large profit.

But there is much to be said on the other side and a more complete investigation is desirable. What is meant by a turnover tax was explained as follows by the Citizens' Research Institute of Canada last winter.

It is a variety of sales tax, but whereas the sales tax, as we have known it, is limited to the manufacturer, producer, importer, wholesaler, and jobber, or as at present in Canada, to that one of those who is first in the chain to sell commodities in their most highly finished state, the turnover tax, applied to its theoretical limit, is a tax upon the gross sales of commodities and services of all business, whether manufacturing, wholesaling, retailing or otherwise, and whether mercantile, financial or professional. It is applied not only at the initial stage, but not only at the final stage, but at all stages between the raw material and the consumer. To this form of gross sales tax the term turnover tax, has been aptly applied.

The rate has been usually one per cent, at each stage and it is claimed by the advocates of the proposal that

as the tax would be applied on the amount of gross sales of commodities or services at the end of a stated period, it would be easy for anyone keeping even single entry books or a cash register to fill out the necessary form and calculate the size of the government's cheque. Most of the proponents of the idea are of the opinion that it would be advisable to exempt turnovers up to five or six thousand dollars a year, as the cost of collection on these would be out of all proportion to what the government would receive.

Ready for the Exhibition

Entries are coming in fast for the Lacombe Exhibition, to be held on Monday, Tuesday and Wednesday, July 27, 28, 29. The buildings and grounds are being put in order for the accommodation of exhibitors, and no trouble will be spared to make the 1931 Exhibition a record-breaker.

There promises to be a greater exhibit than ever of cattle and horses, the leading breeders of the district having signified their intention of competing in the various classes.

There is also going to be a good program of horse racing, in which local horses only will compete, and other sports may be arranged.

The Society has secured a good line of attractions for the Grand Stand, including:

Bassett & Bailey in great hand and head to head Balancing Act, and other sensational feats. The De Waldo Duo, wire walkers, contortionists and novelty bicycle and motorcycle turns. McCune & Grant Trio, Comedy performers, in acrobatic performances. Miss Henderson and her trained Troupe of dogs, a great hit with the children.

The Sensational Fred Beckles in death-defying stunts 85 ft. pole act, one of the most thrilling events ever brought to the West.

Everyone in town and district should make an effort to make this year's exhibition a success. The directors are going to a lot of trouble to give visitors an enjoyable time.

Get all information from D. F. Chisholm, Secretary, Lacombe.

GOLF TOURNAMENT

JULY 21 and 22

The Second Annual Tournament of Lacombe Golf and Country Club, will be held on Tuesday and Wednesday, July 21st and 22nd. Entries should be in the hands of the Secretary, Mr. A. Belcher, by noon on July 20th.

FOOTBALL

Last week the scales of fortune hung level in favor of Spruceville, who beat the Experimental Farm three goals to nil at Southward's place, in a return game of Soccer Football. This was more than a recompense for their previous defeat here of three goals to one. It would be unsafe to predict which side will win the rubber.

On Tuesday evening last, Lacombe Footballers played Red Deer away, but failed to score a goal, which would have least given a more true idea as to the merits of the teams. Not only was Red Deer's lone tally scored in the first few minutes, a fluke that should never have occurred, but, putting it quite mildly, Red Deer's goal was in almost constant danger and their splendid Wilshire goalie, was kept busy, while Lacombe's had little to do, and there was not a single corner against us.

There were three men hurt during the game. Players who suspect they have injured an opponent should give some outward evidence of the fact, and render the referee's task so much more easy, especially when it is getting dusk. Hit-and-run drivers are not contented with the actual rule, could be well adopted in a Football game.

SPRUCEVILLE HALL

U.F.A. Sunday will be observed in the Spruceville Community Hall, on July 19, at 2:30 p.m. Rev. Dr. Hollingsworth of Edmonton, will have charge of the service. Everyone welcome.

There will be a dance on Friday, the 10th of July in Spruceville Hall. Doug Sprinck and his Collegians, will furnish the music. The management is very anxious to reduce the debt on the hall, so let us have a good turnout.

GRAND DANCE AT BENTLEY ON FRIDAY 10th

There will be a big dance at Bentley Community Hall, Friday night, (tomorrow), and a large crowd is expected. This is the second dance of the summer series of dances, which are held every Friday night. On Friday night last, there was a record crowd, over 150 couples being present. Make Friday night your night out and attend these popular dances in Central Alberta's finest community hall. Music will be supplied by the well known Lacombe Star 5-piece Orchestra. You will have real time at Bentley. Hardwood floor.

MEADOWBROOK

Rev. Mr. Wright of Morningdale, was visiting in our district last week. The school picnic was held last

Friday at the school house, with about 80 present. The afternoon was spent in playing games and races. Then supper was served with lots of ice cream. The church picnic was postponed till July 7th.

We see Johnnie Sasse is still running the old Ford, in spite of the wreck he had.

Mr. and Mrs. Wallace Archibald, and daughter Margaret and Mr. and Mrs. Brenneholts and family have motored to Washington.

Mr. and Mrs. Herbert Long moved to New Norway last Sunday, returning with Mrs. Kenneth H. Ford and 2 kiddies who will be visiting a while.

BLACKFALDS NEWS

To Mr. and Mrs. Henry McLennan, at Lacombe on Saturday, June 28th, a daughter, June Helene.

Dr. Wm. Hollingsworth will be the speaker at Spruceville Hall on Sunday, July 19th, at 2:30 p.m. the occasion being the annual service of the Spruceville U.F.A. Everybody welcome. Dr. Hollingsworth is well known in the district.

The District Convention of the W.I. will meet in the Blackfalds Church Hall on Wednesday, at 8:00 a.m., July 15th. The local W.I. held a meeting last Saturday completing arrangements for the convention.

"WHOOPEE"

At the Avalon Theatre

Thursday Friday Saturday
"Whoopie", is one of those pictures which give the public its money's worth in almost any direction you want to think of. Hilarious comedy from such experts as Eddie Cantor, the star, and Ethel Shutta, tuneful songs of every variety, beautiful girls galore as only Zeigfeld can pick them, an affecting love-story, and a general air of satisfying loveliness make it a picture in a million.

Samuel Goldwyn has here shown that the talking color screen can out-do the stage, whenever it wants to take the trouble. "Whoopie" is a rich treat of a sort which is seldom seen.

If you can only see one picture a year—by all means attend this one. Will the Lacombe audience try and attend Thursday and Friday, as we expect a record crowd.

COMING
High Chatterton in "Right to Fight" July 16, 17, 18.
"Just Imagine," July 23, 24, 25.

BLINDMAN RIVER OVERFLOWS BANKS

Owing to the recent rains the Blindman river has overflowed its banks and spread over the low lands in this area. Only once before in 24 years has the river been so high. At the bridge one mile west of Rimby, the water has overflowed the grade and on the west side the approach has been badly damaged.

The grade at the bridge two miles south of Rimby is also covered, rendering that route dangerous for crossing. The river receded slightly during Monday and the rain ceased, making the situation less threatening.

PATRICK BURNS IS APPOINTED TO SENATE

Ottawa, July 7 (C.P.)—Patrick Burns, Calgary, well-known cattle man, has been appointed to the Senate. Arthur Marcotte, K.C., Pontiac, Sask., has also been named a member of the upper chamber. Official announcement to this effect was made Monday night.

The party standing in the Senate will now be: Conservatives 47; Liberals, 48.

One more vacancy exists in the upper chamber at present, due to the death, slightly more than two months ago, of Senator G. G. Foster, Montreal. When the vacancy is filled, Conservatives and Liberals will have equal representation.

THE WORLD DOETH MOVE

These are strange days, stranger than we comprehend, more portentous than we know. A new world is in the making. It matters little that the passing cloud of depression has for the moment obscured vision. Even now it is breaking to reveal great change, great effort, and great things accomplished.

The man who sees the institutions of his day fixed and imperishable is self-deluding. There is nothing in the universe that does not change. Never in history have industry, the relations of man with man and nation with nation, the myriad concepts of religion, philosophy and science, been in such a state of flux. Yesterday's hypothesis is today's dogma, and tomorrow's anachronism. In truth, as Galileo affirmed in the shadow of death, "The world doeth move."

Change brings fear to many, hope to many more. For a thousand years the western world has labored, suffered, hoped and prayed. Diverse factions clashed and rival theories sought supremacy. The bonds of darker days were broken one by one. Yet many remained. The tide of human progress swept forward, receded a little, advanced again.

The nineteenth century thought the pinnacle of effort had been reached. Actually man was then entering the portals of a day his forebears had never comprehended. And so we may well take hope that change is again upon us. History proves that the good eventually survives, the dross is consumed. Courage, foresight and trust in ourselves are the strongest weapons. In the forge of adversity they are but more strongly tempered.

Here and There

Feeding tobacco to sheep is the latest device to check internal parasites. The tobacco is given with salt in the proportion of ten pounds of salt to one of crushed tobacco leaf.

Latest available estimates place Canada's forest resources at \$224,304 million cubic feet of standing timber, capable of yielding 42,637 million feet board measure of sawn lumber and 1,121,995 thousand cords of pulpwood, ties, poles and other smaller materials.

Western Canadians are showing resolution coupled with a high degree of industry, was the comment made by Grant Hall, vice-president, Canadian Pacific Railway, on his return from a recent tour of the company's western lines.

Trail riding in the Canadian Rockies has made a strong appeal to Lord Dunsannon, son of His Excellency the Governor-General, who with the Hon. Arthur Ponsonby and Major Doherty have been staying at the Banff Springs Hotel.

Intensive campaigns against grasshoppers, wireworms, wheat cutworms, potato beetles, cabbage butterfly, root maggots are being conducted throughout the wheat areas of the province, and fall with a special organization in the field.

"Buyers' Week," which has been a great success in the past, will be for the fourth time in Montreal commencing August 10 next. At the last one in February upwards of 1,000 buyers were attracted and purchased in round figures \$500,000 worth of Canadian-made goods.

A man catching a fish is not news unless the fish is an outsize, but a fish catching a man rates a big type head. This happened at Lake Minnewanka, near Banff, recently when an angler was pulled off the pier into the lake by the sudden strike of a monster trout. Constable James of Calgary put off in a boat and landed both fish and fisherman.

Six days, nine hours and eleven minutes was the time of the record made by the "Empress of Japan," 26,000-ton flagship of the Canadian Pacific fleet, on her last trip from Yokohama to Honolulu, while a double record was made when the same ship completed the voyage from Honolulu to Victoria in four days, nine hours and 16 minutes.

For the second time in the past three years, Canadian Pacific Railway police are all-Canada revolver champions. The railway's Ontario team defeated Royal Canadian Mounted Police, of Leithbridge, in the finals for the trophy recently. The railway police scored 1410 out of a possible 1500 against the Mounties 1382 thus becoming Dominion Open Revolver Police Champions.

Hon. Gordon S. Harrington, Premier of Nova Scotia, and two hundred of the province's leading citizens, gathered at Yarmouth June 16 for the opening of the Lakeland Hotel, a Canadian Pacific project. This hotel is the third of a chain across Nova Scotia, a few years ago in the past opened by the railway in the past, testifying to the faith in the tourist possibilities of the province held by the Canadian Pacific.

BANFF'S BEAUTIES

Beauty and Banff, the heart of the famous Canadian Rockies are synonymous and as like attracts like it is not surprising to find such a bevy of beauty as is shown in the accompanying pictures, depicting the beautiful swimming pools of the Canadian Pacific Railway's palatial Banff Springs Hotel. There are two baths, one of naturally heated sulphur water and the other of ordinary stream water, both of which are extremely popular with the many visitors to the renowned summer resort. Recreations in infinite variety run the gamut of sports from golf to mountaineering. Real cowboys are on hand to take trail-riders through the innumerable passes of the historic mountains, while the Indian and scarlet-coated "Mounties" add yet another touch to the already colorful scene. Banff is something that has to be seen to be appreciated. Its devotees come yearly from the four corners of the globe. There is always something new; always something to do, and when the long happy day is over, dance to the strains of the orchestra in the spacious ball room of the hotel.

forms a fitting prelude to a restful night in the health-giving mountain atmosphere. Yes, Banff is beauty and beauty is Banff and the smiles on the faces of its merrymaking repeat volumes for the happiness of this great playground.

VALUABLE papers—agreements, deeds, stocks, bonds, policies—all these things are subject to constant danger from loss if kept on your farm. Fire and theft, too, are always a menace.

There is no need to run these risks when a Safety Deposit Box costs as little as \$3 a year to rent, yet gives you every protection.

Good

Blue Ribbon Tea
REDUCED PRICE

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Town Notes

Tomorrow night, Friday, July 10, Watawin Soccerists come here to play Lacombe at 7.30 p.m. Come and root!

Odafellow and Rebekah Lodges in Central Alberta are uniting on a huge picnic to be held at Sylvan Lake on Wednesday, July 15th.

Those who like to dance will certainly enjoy themselves at Bentley on Friday night. The Bentley Community Hall has the finest hardwood floor in the country.

Dance under ideal conditions in the beautiful Bentley Community Hall. Dances every Friday night. Music by the Star 5-piece Dance Orchestra. Large crowds attend these dances.

The annual Camp Meeting, Alberta Conference, Free Methodist Church will be held at Alton, July 9 to 19. Trains will be met. Services will be in charge of the District Elder, assisted by the Ministers of the Conference.

Mr. and Mrs. George A. Smith, 11133 96 street, Edmonton, announce the engagement of their eldest daughter, Jean H. Smith, to Dr. Glen R. Davidson, of the Central Alberta Sanatorium, in Calgary. Dr. Davidson is a graduate of Queen's University.

Teddy George, of Rimbey, gave the cottagers at Aspen Beach a thrill last evening when he put his speedboat Miss Patricia II through its paces. This fast boat is entered in the races at the big sports event at Gull Lake on the 25th, and many of those who saw him stepping last night are confident that he will capture the championship.

Members of the Women's Institute enjoyed an afternoon in the country, on Wednesday at the home of Mrs. T. F. Roberts. Mrs. Roberts was appointed as delegate to the constitution conference to be held at Blackfalds on July 15th. E. H. Jones, K.C., gave an illuminating talk on the legal aspect of the Old Age Pensions, Mother's Allowance, the Widow's Relief Act, and Rights of Tenants. Refreshments were served and a social hour spent.

Owing to the large number of holidayer's at the lake drastic action will be taken against any car drivers exceeding the speed limit. The speed limit at Gull Lake is 20 miles per hour, and at corners or bridges 15 miles per hour. There are many places at the lake where speeding would be extremely dangerous and motorists are warned that speeding or reckless driving will not be countenanced.

This season at Gull Lake promises to be the greatest in the history of this popular resort. There are at present some 15 or 20 new cottages being erected, and all of them are of very modern design. The camping grounds are being used to full capacity this season and at every place where there is shade may be seen tents pitched. A Boy Scout camp is also located at Aspen Beach and some forty or fifty young boys are having the time of their lives at this camp. Tourist traffic has commenced and the various stores and gas stations are getting their share of the business. The gravelled highway, which is now in perfect condition is proving a wonderful service to the travelling public.

CARD OF THANKS
Mrs. Adair, Mrs. Russell and family, wish to thank all those who rendered assistance and extended their sympathies, in their recent and bereavement. Their kindnesses will ever be remembered.

THE CHURCH OF ENGLAND

HOOVER'S MORATORIUM GOES INTO EFFECT

PARIS, July 7.—An international agreement suspending payments on all war debts arising from the Great War, until July 1, 1932, was in effect today as a means of reestablishing the economic life of Germany and the entire world.

United States and French delegates after 11 days of stubborn negotiations, signed an accord shortly before midnight which accepted President Hoover's offer to defer remittance on inter-allied war debts for one year providing Germany's reparations payments also were postponed. All other nations affected previously had signified their acceptance.

The protocol of the accord was initiated in the red drawing room of the ministry of the interior by Secretary of the United States Treasury, Andrew W. Mellon and United States Ambassador Walter E. Edge, representing the United States, and by Premier Pierre Laval, Finance Minister Aristide Briand, and other officials representing France.

the following chief stipulations:
1 Payment of inter-governmental war debts is postponed from July 1, 1931, through June 30, 1932.
Germany will pay the unconditional annuity of the Young plan to the bank for international settlements which in turn will re-lend it to her.
3 The suspended payments will be subject to interest, and will be repayable in ten annual installments beginning July 1, 1933.
Premier Laval issued a statement pointing out that France had safeguarded her interests, but had extended the olive branch to Germany.
"It is an admission which consecrated a heavy sacrifice for our country," he said. "It will be understood that the government wished to maintain the Franco-United States solidarity which is a condition of international co-operation more than ever necessary for peace."
Three points are still to be threshed out by signatories of the Young plan and the world bank. These are: Measures to aid countries weakened by suspension of payments, an understanding concerning the French guarantee fund, and Germany's liability for payments in kind.
France will undertake to obtain concerted action by European central banks, presumably working with the United States Federal Reserve bank, to aid the Central European nations which find difficulty in balancing their budgets on the basis of the plan. She will endeavor to arrive at an agreement with the world bank, whereby in case Germany declares a moratorium she will cover the guarantee fund only to the amount actually required by the bank.
She will leave to a commission of fiscal experts the question whether Germany shall respect her obligations to continue payments in kind, the decision to be in harmony with the spirit of the Hoover proposal.
Most of the newspapers hailed the agreement as the most momentous chapter in history since the signing of the treaty of Versailles.

NEW STAMPS ARE SAME OLD REDS
Stamp vendors at the local post office don't know they are selling new stamps as far as color is concerned, for the new three cent stamps which have been on sale since July 1 are the same color as the last issue of two-centers—red.
But very shortly, all possibility of confusing the old two cent stamps with the new three centers will be eliminated because the new two will be a light brown shade.

RESTRICTING THE CRITICS
Public libraries in many Canadian cities are asking Ottawa to exempt a great many United States periodicals from the suspension in connection with this, the Winnipeg Tribune points out that too many exemptions would kill the very purpose of the tax, which the Tribune considers, is to stop objectionable literature from coming to Canada.
In one sense the Tribune is right. Too many exemptions would merely throw this particular tariff provision into disrepute, by taking the sting out of it. The difficulty, however, does not end here.

If as some maintain, the tax on foreign magazines is aimed primarily at United States advertising, then the fewer the exemptions the more likely the tariff is to succeed in its objective. But, if, as the Tribune claims, the tax is aimed at the literature contained in the periodicals, then decision as to what to exempt becomes infinitely more difficult.
There are a great many harmful magazines, obviously cheap, flashy, and without redeeming features. To tax these heavily can only be beneficial. But there is another type of literature which may suffer because of the tariff, and which should not be victimized. A Toronto writer the other day attacked the works of Aldous Huxley and Theodore Dreiser and said he hoped the Bennett tariff would stop them from coming into Canada. This is a typical example of the danger to which we refer.

Human beings build institutions and acquire traditions. They come to love these—which they build themselves—so intensely that they consider any attack upon them as immoral. What is, is right. We are, all to some extent, slaves of the past. Progress is brought about by a gradual breaking down of institutions and traditions and substitution of new ones. Always there are writers ahead of their time, who are called immoral and outcasts because they attack courageously the existing order of things.
Only in recent years has any degree of tolerance been felt by the public toward these men, and it is not very marked today. There is a great body of citizens who would like to use the Bennett tariff as a foreign to these men, because they do not like to see the existing order criticized.
We do not wish to tear down institutions for the sake of tearing them down. We wish to come down, but do not wish to see criticism of them in any way hampered. On the other hand we have the state, the church, the capitalist system, the institution of marriage and a hundred and one other accepted conventions. On the other hand we have the critics of these things. Out of the clash of these two forces come intelligent progress. To restrict the criticism paves the way to stagnation and decay.

SWINGING BACK TO NORMAL
Even under Socialism, wages must be paid according to the work done, and not according to the needs of the workers." So said Stalin and a new era in Russia began. The wage scale is to be readjusted. Skilled workers are to receive more money than unskilled workers. The whole history of the Russian experiment is the story of an attempt to build a new civilization upon an abstract social theory, and as the years have passed the theory has been modified and changed to suit the conditions. Lenin found pure Marxian Socialism was impracticable—even though Russia was fundamentally Oriental in structure and the Russian millions easy to organize into a new society, due to the despotism of the Czar—and he evolved, instead, the New Economic Policy. Stalin attempted to communize the farms to a greater extent than had been done by Lenin, but his efforts were not entirely successful because the members of the Kulk (wealthy peasant) class offered passive resistance and destroyed much of the produce, livestock and machinery of their farms rather than let them be confiscated by the government. Then the movement for payment by piece was begun. It was the first significant step away from Communism. Now Stalin has outlined a program which has all the appearance of a first step back to some sort of capitalism.

We cannot be sure of course, for Stalin is an opportunist, and the fact that he has restored payment according to ability, does not mean that he has necessarily given up pure Communism as the ultimate objective of the Russian people. Yet the concessions are intensely significant.
If they do spell the end of Communism in Russia and the end of Lenin's dream, it will be the end of the most ambitious and most courageous experiments in modern times. Only the bigot would dispute the claim that ideal Communism—in which all men are equally endowed with wealth, equally wise and good—is the ideal state. Lenin attempted to build this ideal condition, out of the material of feudal Russia, but the impact of reality qualified his vision.

The Russian experiment may serve

Population of Britain

The preliminary report on the British census is an arresting one. Despite the unemployment troubles which have persisted since the war and the efforts to stimulate emigration because it was felt that the country contained more people than it could sustain properly, the population of the island has gone up a little more than 2,000,000 during the past decade. It stood on the day of the enumeration at 44,700,485 and the number of persons per square mile is stated to be "the highest in any country where a count is made, with the probable exception of Belgium."

England and Wales more than account for the increase. For the first time in its history, Scotland shows a decrease, amounting to just short of 40,000. Even in the previous decade the northern kingdom had a gain of 121,400, and that period included the war, which took a toll of 200,000 Scottish dead. What is the explanation of the decrease on the two sides of the Tweed? It is probably found in the expansion of urban industry, which tends to concentrate in the south. But Glasgow has continued to grow and nearly a quarter of the less than 5,000,000 people in Scotland live in that city.

The explanation of population in England and Wales which are treated together in the report is all the more remarkable because it lays emphasis on the decline in the birth rate, which is stated to be lower than anywhere else except in Sweden. This has been offset partially by a substantial cut in the death rate. But it would have resulted in keeping the population increase to small proportions, if there had been anything like the same movement overseas as before the war. The marked lessening of that movement though the country has been much less prosperous than prior to 1914, is thus mainly responsible for the growth recorded.
The falling off of emigration cannot be said to be due to restrictions established by countries where new homes were previously sought. For the greater part of a decade other lands, with the emphasis on some of the British citizens and for quite a few years the British quota fixed by the United States has not been filled. What has worked more than anything else against emigration is undoubtedly the social legislation that has been in force. With its benefits those who in the old days would have gone elsewhere have been loth to leave.

A. M. CAMPBELL'S

School Notes

Good Bye School, Good Bye Books, Good Bye teacher's cross-eyed looks."

The younger generation called back the foregoing from a safe distance to the brick building last Tuesday. It was chorused by several, and it died away as they went out for their well-earned vacation.

The writer, through the courtesy of the Editor, wishes to express his gratitude to several of the Lacombe folk. The few words are not at all adequate, but they are sincerely offered for services that have been much appreciated.

The work of the instructors is beyond praise. Due to their untiring efforts the pupils have become more educated. Education is a word with a far-reaching connotation, these men and women have "led out" the best that is within boys and girls. "They have loved the labour better than the wage." They have advanced your school. This will be accelerated in your fortunate choice of a principal for next year.

The Students' Union deserve credit for their energy and enthusiasm. Their generosity in sponsoring the Visual Education experiment merits special commendation. The students body were fortunate in their choice of Boyd as President, and Helen as treasurer.

The work of the School Board in furthering the interests of the school is appreciated by all.

To Mr. D. Hay, Mr. M. Parcels, and Mr. W. Sage all credit is due for the furtherance of the Open Air rink, with the able assistance of Mr. D. Thompson. The first three mentioned worked very hard for the health proposition. To Mr. Barney Halpin comes all the credit for investigating the rink. Barney spent some late hours in the flooding. Mr. Mathison, and Mr. Duckworth, also supervised it for the school hours.

His Worship Mayor Jackson gave valuable assistance in the open air rink, but his furtherance of health for local schools is a long step forward. As this proposition was already explained in this paper, a repetition will not be given.

An especial word of thank is extended to all who helped in the extra-curricular. Space will allow only names: Miss Smith, Miss Jagoe, and Miss Young; Mr. Leslie Mathieson, Mr. Duckworth, Mr. McCormick, Mr. Thompson, Mr. Wilkie, Mr. Dwan, Mr. J. N. B. McDonald, Mr. Parcels, Dr. Hynes, and many others who helped us along with care, monetary contributions and loyal wishes. The co-operation, and gratuitous assistance of The Western Globe has been a decided help in our year's activities.

Lastly, but really of prime importance, the writer would like to com-

mend the students who stood for Lacombe High, even when the policies of "the office" appeared partial.

In conclusion: whatever has been praiseworthy of the year's activities has been due to the unselfish endeavor of Miss Lockery, Miss Dowling, Miss Pratt, Miss McClary, Miss Young, Miss Jagoe, Mr. Mathieson, and Mr. Duckworth. They quite offset any inaccuracies on the writer's part. With these men and women (and to the Principal of 1931-1932, who is a gentleman and a scholar), the writer is assured that Lacombe School will have the best year it has ever known.

Douglas Aikenhead

Sunny Crest

We were sorry to see Mr. and Mrs. Barr and family lose their home on the 27th. Everything was done that could be done to save the furniture downstairs. No one could go upstairs at all, so all the bedclothes and wearing-apparel was burned. The ladies of the neighborhood have started making quilts. They had an afternoon at the home of Mrs. H. Woods.

Dr. C. C. McLaurin gave a very interesting talk to the Sunday School at Sunny Crest on the 21st, and we hope to have him speak again.

The play put on at the school under the Y.P.'s was enjoyed by everyone had a good time. Two weeks later the meeting was held at the home of Mrs. R. Gee. Phyllis Kamah gave a good talk, in spite of the fact she was writing exams. Mr. McLean spoke and ice cream was served. The next meeting is to be held at Mrs. Morris' on July 9th.

The Sunday School picnic is to be Wednesday 8th, at McLaurin Beach. The boys of the neighborhood have formed a foot-ball team with Herbert Woods as Captain, Ivan Morris as Sub-captain, and Lester Barr as Secretary-Treasurer. They gave 50c each towards ball and so got a real good one. Herbert Woods gave the ground for the games, on the C.P.R. land across the road from Lester Barr's. The only restriction placed was that no games were to be played on Sunday. They have had several games. Get out and boost your team.

TO REORGANIZE POOL SYSTEM

The air has been filled with rumors of wheat pool disaster during the past week, but statements issued by Premier Brownlee of Manitoba and Premier Brownlee of Alberta yesterday indicate that the pools in these two provinces will continue to operate the elevator systems built up during the seven years of pool existence. These pool elevators com-

prise practically all the security held by the governments for the indebtedness incurred by the guarantees to the banks for financing the 1929 crop.

The pools have been hard hit in the economic crisis and the drastic and prolonged declines in wheat prices. Radical reorganization in pool methods will have to be made to meet the new conditions. The Manitoba pool has already decided to free its members from the obligation to pool their grain. They may now sell in the open market. It appears certain that the Saskatchewan and Alberta pools will have to extend similar latitude to their members in order to forestall extensive desertions. There is no good reason why this course should not be followed in the event that a wheat board is not established, and there seems little likelihood of that.

It is probable that the activities of the central selling agency of the pools will be greatly restricted this year. With Manitoba members being allowed to market their own wheat and with the crop in Southern Saskatchewan almost a total failure, pool grain will be greatly restricted in any case. But in any event the central selling agency cannot be abolished until the unsold balance of the 1930 crop has been disposed of.

The Alberta pool is in the strongest position of the three co-operative organizations. Premier Brownlee in a statement yesterday hinted that a reorganization may be undertaken, but he was emphatic in declaring that the elevator chain would be operated by the pool as a unit for the benefit of pool members. This means that the Alberta government is desirous that the pool should remain in business. In this province, unlike Manitoba, the pool and the elevator system are one and there has been little if any dissatisfaction expressed with the manner in which the elevator chain has been managed. Moreover, it is fairly obvious that the provincial government would run into a peak of trouble if it undertook to operate the elevators. It would be subject to endless complaint against under-grading and political pressure would be brought to bear in favor of preferential treatment.

The present apparent trend in pool affairs is toward separation. With pool selling methods completely revolutionized so as to include trading in futures and with members being granted alternative methods of sale, the need for a central selling agency largely disappears. The Alberta pool might serve its own best interests by acting independently of the other organizations, and this looks to be an opportune time to take steps to sever relations.

Young married couple wants farm work. State full particulars. Apply Box 268, Lacombe. 326-3p

OUR DISAPPEARING WILDFLOWERS

The plains and woodlands of Central Alberta have long been famed for their beautiful wildflowers and flowering shrubs.

It is therefore a matter of extreme regret to lovers of nature that some of our most beautiful flowers—those that find the struggle for existence rather strenuous—such as Orange Lillies, Blue Fringed Gentians, Ladies' Slippers and other Orchids, are rapidly disappearing and indeed are threatened with extinction.

The brush hook and the breaking plow have forever ruined the major portion of our wildflower gardens. Which this is regrettable it is undeniably true that it should be the aim and object of every right-minded citizen to help conserve and perpetuate these flowers where possible.

Instead, many of our well-meaning but thoughtless citizens help on the process of extermination by plucking every pretty flower with which they come in contact. It is quite a common sight to see adults and children coming in from the fields and meadows with whole armfuls of beautiful lilies.

These can last only a very short time after being plucked and then they find their way to the rubbish heap where they are of no service or gratification to any one but the garbage man. If left in their native haunts to seed, they will make a riot of bloom another year which may enjoy.

It is also a common practice for the destroying public to break off twigs, branches, and whole limbs of Saskatoon and Cherry bushes. This results in an economic as well as aesthetic loss—because some of our most beautiful and useful birds flock to places where such fruit is most plentiful.

A few words of admonition from parents and teachers in this connection will serve to start most children off on the right line of thinking.

We have often heard the slogan: "Make Alberta a better place in which to live." Let us make it a prettier place in which to live and it will be better to that extent at least.

Allan D. MacDonald.

ONE HUNDRED MILLION FOR POOR RELIEF

It will not be necessary to wait long now to learn what are the federal government's further plans for unemployment relief. Mr. Bennett intimated on Wednesday that, just as soon as matters then on the order paper were disposed of, he would introduce the required legislation, which would cover the very serious problem that had arisen in the drought-stricken areas. This must be forthcoming in a few days, if it is to receive proper consideration and

Summer Days Are Here Again

We Have Everything Necessary to Fit You Out so That You May Enjoy the Holidays in Comfort. Come in and Let Us Show Our New Lines of Summer Wear.

DAVID HAY Men's Lacombe Wear Cleaning, Pressing and Repairing, Promptly Done.

the season is to be brought to a close, as expected, by the end of the next week.

It is anticipated that authority will be asked to raise at least one hundred million dollars for "these objects by way of a loan. The sum mentioned is a very large one but it would be unwise to make it any smaller. While it need not all be utilized, the chances are that it will be found imperative to do so.

There is every indication that the government is prepared to accept a much larger share of the responsibility for relief work than hitherto, and that it will have comprehensive proposals to make. Premier Brownlee, speaking at Coronation on Friday, urged that, in order to stop the drifting of unemployed a scheme to

be inaugurated all over Canada, on a certain date was required. That the matter has to be grappled with on a national basis is indisputable. Primary attention must, however, be given to the west and an undertaking that it would be given by Senator Robertson before his return to Ottawa from his tour of these provinces.

The further discussion of the situation has gone, the more apparent it has become that it will be most effectively remedied through the providing of work on public projects. Of these the national highway, the completion of which was the remedy to which Mr. Bennett committed himself during the election campaign, will unquestionably meet the need better than any other. His

promise was to aid in the building of the highway, not to have the dominion put it through altogether with its own funds. But it is clearly his duty to take the initiative in formulating the plans and to assume a large proportion of the cost. He will be counted upon to announce these intentions when he seeks the appropriation for relief purposes from parliament.

Father's Day, having passed quietly, we are now facing Wife's Mother's Week.

BULL FOR SALE
Registered Jersey Bull, \$50.00.
Would trade for good cow.
